BACK AT HEADQUARTERS.

THE INTERSTATE COMMERCE COM-
MISSIONERS RETURN.

Protests and Petitions Awaiting Them on
Their Arrival—Section Four is Pro-
nounced Ironclad by Senator Reagan.
Various Other Washington News.

WASHINGTON, May 17.—Messrs. Cooley,
Morrison and Bragg, of the interstate com-
mission, are in town. Messrs. Walker and
Schoemaker not having arrived yet are
expected here to-morrow, so there will not be
a meeting of the full commission until
Wednesday. Several complaints were re-
ceived at headquarters in this morning's
mail, all protesting against the suspension of
the long and short haul clause of the law.
The board of trade of Prescott, Ariz., in a
communication, protests against a discrimi-
nation now in force against freight from St.
Louis to Prescott and interior towns of the
territory, and in favor of San Francisco. In
support of their complaints, the board in-
stances the fact that on a certain class of
goods \$700 per car load is charged from St.
Louis to Prescott, while the same class of
goods are carried from St. Louis to San
Francisco for \$125 to \$250 per car load. The
distance from St. Louis to San Francisco is
2,600 miles, and from St. Louis to Prescott
1,700 miles.

A communication from United States Consul
Twitchell at Kingston, Canada, to the
secretary of state commenting on the evil
effects of the interstate commerce law on
trade and commerce between the United
States and Canada was also received at
commission headquarters to-day. Writing
under date of May 9, Consul Twitchell says
Canada's high protective tariff, in which
there is no prospect of a reduction, made
him apprehensive from the first of the effect
of the increased railroad rates on imports
from the United States to that section of
Canada. Since the 4th of April rates as
shown by freight bills have been increased
from 25 to 100 per cent with no change on
Canadian roads. Coal dealers are preparing
to bring coal from Nova Scotia for all pur-
poses where Nova Scotia coal can be used.
In hardware and tinware orders have been
changed from American to Canadian houses
on account of increased freight charges. In
groceries there is the same complaint, and
products of countries outside of the United
States the Canadians expect to get by way
of British Columbia and Halifax. The un-
pleasant feature noticeable, he says, in connection
with the effects of the new law on
freight charges, has been a generally ex-
pressed desire to find how and where mer-
chants can make purchases without coming
into contact with American railroads.

Senator Reagan replying to a letter from
Commissioner Morrison inviting his atten-
tion to the proper interpretation of Section
4 of the interstate law, says that that section
is iron-clad, and that the commission is not
justified in suspending it. He concludes by
saying: "I have tried to show, first, that
the commission has no power to suspend a
law of congress; and second, if they had as a
matter of discretion the power to do so, that
it would be a great wrong and injury to the
public, and to a large extent would defeat the
great and beneficent purpose of congress
to protect the people from wrong and op-
pression, and to subject these corporations to
the control and supervision of law."

English Confederate Bondholders.

WASHINGTON, May 17.—Information has
been received here that the opinion prevails
among the English Confederate bondholders
that the United States will assume the obliga-
tion of paying the bonds. The counsel of the
bondholders committee is of the opinion that
efforts now under way will result in the next
session of the United States congress to raise
the whole question by a suit in the court of
claims. This opinion does not prevail in
Washington.

day appointed the following named postmasters:

WASHINGTON, May 17.—Mrs. Kate Chase,
who is living quietly at Edgewood, is having
many marks of attention shown her by
Justice Chase's old friends. Her financial
fortunes are reviving with the boom in sub-
urban real estate. She has recently been
offered \$150,000 by a syndicate for the Edge-
wood property.

A Japanese Naval Cadet.

WASHINGTON, May 17.—Secretary Whitney
has authorized the admission to the
Naval academy as a cadet, of H. Nire, a
Japanese student of a noble family. The
law authorizes the education at the Naval
academy of a student designated by the
Japanese government.

Civil Service Commissioner Edgerton Ill.

WASHINGTON, May 17.—The return of
Civil Service Commissioner Edgerton, who
has been absent from his post for over a

which are under the treatment of an Eye
dianapole oculist.

meeting of locomotive firemen was held yes-
terday evening under the auspices of Lodge
No. 149, Brotherhood of Locomotive firemen.

Charles A. Dana and Chauncey M. Depew.

Dying of Hydrocephalus.

MADISON, Ind., May 17.—A will of hydrocephalus
aged eleven, is dying of hydrocephalus at
Wise's Landing. The horrible mysterious
lady, who has been at the county asylum
here for the past three months, proves to be
a sister of Mrs. Caleb Ryle, of East Bend,
Kentucky.

Generous Donation to Wabash College.

WABASH, Ind., May 17.—Mrs. S. S. Sabin,
a wealthy LaPorte lady, has just made a gift
of \$5,000 to Wabash college, at Crawfords-
ville, to endow a alcove of books in the
college library for her son, Chauncey. This
makes an aggregate of \$65,000 that the Sabin
family has given to this college.

Death of Elijah C. Phister.

MAXVILLE, Ky., May 17.—This city suf-
fers severe loss by the death of Hon. Elijah
Phister, a prominent lawyer and jurist of
this state. Judge Phister sank into a quiet,
easy slumber at 10:30 Sunday morning. He
was at an early age a student at the college
in this city with U. S. Grant, and was circuit
judge of this district for a term of six
years. He represented Mason county in the
legislature, where he made an enviable
mark. It was during these years that the
memorable Cincinnati Southern railroad
legislation was enacted. He was elected to
congress in 1878, and served two terms, was
a member of the judiciary committee, a
prominent Odd Fellow and past grand master
since 1882. The funeral takes place to-morrow
at 3 o'clock.

Original Manuscript of Home, Sweet Home.

ATHENS, Ga., May 17.—What is said to be
the original manuscript of "Home, Sweet Home"
was buried in the grave of Miss Mary
Harden yesterday. She was John Howard
Payne's sweetheart, but rejected his offer of
marriage on account of her father's objection.
Payne corresponded regularly with her,
sending her among other things the original manuscript of his famous poem, inter-
lined with protestations of love. Since
her separation from Payne, Miss Holden had
never appeared in society, and for the past
fifteen years had shut herself up in the old
family mansion, seeing no one but the few
members of the little church to which she
belonged.

Strike Among the Sailors.

CHICAGO, May 17.—A strike and tie up
among the lake sailors is expected very soon.
The Sailors' union, Knights of Labor, has
issued a circular to members, soliciting their
support, not only in letting alone cargoes
loaded by non-union men and avoiding the
loading or unloading of vessels sailed by non-
unionists, but by using all moral suasion in
having those sailors who do not belong to the
union join it. A motion to reduce the scale
of \$3 to \$1.75 for the return trip from Can-
adian ports was voted down in the assembly
yesterday. Meanwhile the Vessel Owners'
association is shipping non-union men at
\$1.50 per day.

Australian Mails Delayed.

SAN FRANCISCO, May 17.—The secretary
of the New Zealand and postoffice depart-
ment has written to Postmaster General
Vilas, asking that Australian mails from
London to San Francisco be made into two
installments instead of three, as at present, so
as to reduce the chances of delay in sailing
of steamers from San Francisco. Under
the present system, if any one of the three
installments is delayed in the transit the San
Francisco steamer is held back for it. It is
stated that two serious delays have thus been
caused within a few months.

Death Ends a Saloon Quarrel.

OMAHA, Neb., May 17.—Dennis Quinlan,
a painter, twenty years old, was shot in
front of a saloon on Eighteenth and Vinton
streets, at 10 o'clock last night and in-
stantly killed. Quinlan had quarreled with
three unknown Germans in a beer hall.
They followed him and on coming up with
one of them fired, the bullet entering
Quinlan's brain. The murderer and his
companions have not yet been arrested.
Quinlan was formerly from Kansas City.

Fire Still Raging in Michigan.

CHEBOYGAN, Mich., May 17.—Fire is rag-
ing fiercely in the woods in several parts of
this county. Rain fell for a few hours this
morning, but not sufficiently to quench the
flames. Near Burt Lake the situation is
critical. The fire is licking up everything in
its path. A great deal of standing timber,
houses, barns and fences have been de-
stroyed. A heavy smoke still hangs over
this city and section.

Four Murder Trials.

LEXINGTON, Ky., May 17.—Circuit court
began here this morning. The docket is an
averaged sized one, and there are four mur-
der trials set for the coming term, as follows:
Eugene Fogle, for killing Lynch V. O'Con-
nor; James Stivers, for killing John Neal;

Lucretia Munday, for poisoning her husband
in order to obtain the heavy insurance on
his life.

the western suburbs, and Charles Reese,
who was at work on a brick yard at the corner
of Park and Wing avenues, were struck
by lightning and killed. Reinhold Taschler
was paralyzed, and two or three other persons
were severely injured.

Prosperous Merchant Suicides.

PHILADELPHIA, May 17.—Alexander
Whilldin, Jr., a prominent yard merchant,
representing large southern industries in this
city, committed suicide by shooting yester-
day in Dobbs Woods, near Camden. His
business affairs are in a prosperous condition
and the deed is attributed to a temporary fit
of insanity, resulting from general debility,
from which he was suffering.

Cleveland, O., May 17.—Davis &
Neishe's livery stable, on Loraine street, was
burned early yesterday morning and Charles
Baker, an employee who slept in the building,
was so badly burned that he died last night.
Baker had considerable money about him
Saturday and the police think he was rob-
bed and the stable burned to hide the crime.

Fatal Run.

LAGROSSE, Wis., May 17.—Four young
people attending a German picnic went out
in a rowboat yesterday afternoon opposite the
city. The men, full drunk, sought to
frighten Miss Katie Litske, the only lady in
the boat, by rocking. The boat capsized, and
Miss Litske and John Beyer were drowned.
The other two were saved.

The Fatal Robert Ride.

CROTON, O., May 17.—While D. Mizer
and family were visiting Frank Philibaum
at Auondale yesterday, his eight-year-old son
found a Floret rifle under the bed. He took
it out and pointed it at young Philibaum, not
knowing it was loaded. The ball took effect
in the forehead and ranged backward. The
boy cannot recover.

At St. Louis, during a violent thunder-
storm, Bernard Flone and Charles Reese
were killed by lightning. Reinhold

TUESDAY EVENING, MAY 17, 1887.

THE new gas company slipped up on its old rival in the Court of Claims yesterday, and scored a victory when it secured a contract from the Board of Magistrates to furnish gas at the jail, court house and clerks offices for ten years.

To the senior editor of the Republican: We advise you to "keep your hat upon your head, and your shirt upon your back." The new gas company seems to be still in the ring. Witness the little "jack" it turned in the Court of Claims yesterday, and the "pot" which it now claims as its own in the shape of a ten-years' contract with the county for lighting the public buildings.

THE Louisville Commercial seems very anxious to have a Labor ticket in the field at the coming State election. A Labor ticket might add a little interest to the fight, but that's about all it would amount to. With few exceptions Democrats will remain Democrats and Republicans will still vote for their nominees. The Democratic ticket is an exceptionally strong one, and will command the full support of the party.

A Printer's Error.

Sweet are the uses of adversity, the printer's copy said, but he set it up, sweet are the uses of advertising. Sweet, indeed, to those who in sickness and suffering have seen the advertisement of some sovereign remedy, which upon that trial has brought them from death's door. "The best thing I ever saw in my paper was the advertisement of Dr. Pierce's 'Golden Medical Discovery' is again and again the testimony of those who have been healed by it of lung disease, bronchial affections, tumors, ulcers, liver complaints and the ills to which flesh is heir.

A Captain's Fortunate Discovery.

Capt. Coleman, schr. Weymouth, plowing between Atlantic City and N. Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast. His children were similarly affected and a single dose had the same happy effect. Dr. King's New Discovery is now the standard remedy in the Coleman household and on board the schooner. Free trial bottles of this standard remedy at the drug stores of J. C. Pecor & Co., and S. P. Campbell, & Co., of Aberdeen Ohio.

Household Hints.

In washing potatoes preparatory to cooking, it is the custom of experienced housekeepers to bathe the tubers in tepid water. This will be found a much more expeditious process than the common practice of breathing upon them or moistening with the lips and polishing with a coarse cloth. When it is expedient to fill a kerosene lamp while burning, it is generally advisable to delegate the task to the least good looking female member of the family. Should there be an explosion, eventuating in the permanent disfigurement of her countenance, the lamp will be credited with the full measure of her lack of beauty, and consequently as it were, a blessing in disguise. A merciful man is merciful to his beast. Hence it betokens a most commendable consideration for the lower strata of the animal kingdom to embrace every opportunity to ameliorate the condition of these dumb creatures. A most estimable lady, actuated by this noble sentiment, and whose worthy example should be followed by all householders having a real love for God's lesser creatures, regularly leaves her dishes unwashed after a meal in order that the waterbugs may find something wherewith to satisfy the cravings of their appetite. There is such a thing as taking too much precaution, even in housekeeping. It is good judgment, perhaps, to lock the piano when leaving the domestic alone in the house, for obvious reasons; but in most families it is not considered necessary to lock up the wash tubs in order to prevent the young ladies of the family from gaining access thereto. It should be the constant endeavor of the careful housekeeper to remove from sight whatever is unpleasant to look at. There is, however, danger of going too far in this as in other matters of home regulation. For example, when you are expecting guests not possessed of that physical gift which is said to be skin deep, it is not good policy to turn the faces of the mirrors to the wall, as your kind intention would be liable to misinterpretation.—Boston Transcript.

Experiment With Earth Worms.

Mr. Gruber has lately made some curious observations upon the effect of light upon eyeless animals, a report of which appears in the proceedings of the Vienna Academy. He put a number of earth worms into a box, which was provided with an aperture at one side, through which light was allowed ingress. The result of many experiments showed that the worms sought the darkest part of their temporary prison and that at least two-fifths of their number shunned the light. Experimenting with rays of different colors by means of stained glass, he found that the worms exhibited a marked preference for red light.—Boston Transcript.

Eighty-Five Victims.

SAN FRANCISCO, May 17.—Advices by the steamer Zealandia from Honolulu and Sydney, N. S. W., which arrived here yesterday say that the bodies of eighty-five victims of the Bulli colliery disaster have been recovered. The inquest resulted in a verdict that explosion was due to the disregard of the rule prohibiting miners from working where gas existed.

The Villages of the West.

I had a talk recently with a Massachusetts man, who has been west on a prospecting tour. He said: "I have been astounded in going through the western country to note the remarkable stage of improvements which they have attained. If you get off the cars at any town of 3,000 or 5,000 inhabitants or larger, you will find yourself in the midst of a civilization that is equal to any of the great cities of the east. You find electric lights, perfect telephone and telegraph district messenger service, modern improvements in the way of sanitary drainage, street cars, fine public buildings and perfect fire service. Looking the place over you will find buildings of modern construction, finely equipped, possibly with elevators and with all the modern improvements. Such a town is as far ahead of a New England place of the same size as anything you can imagine. It took me some time to realize the conditions and to figure out the causes from which they resulted. The real fact seems to be that these western people are getting the benefits of all the improvements and inventions and progress of the older civilization. The cars on the western railroads are more luxurious than those of the older lines in the east. Railroads are built on a scale of improvement much finer. It would do the people of the east great good if they could be transplanted into the western country for a little while to see the differences I have noted."—New York Tribune.

OBITUARY.

Bettie E. Clary, daughter of George W. and Mary E. Reeder, was born January 4, 1861. At the age of fourteen years she became a member of the Christian Church at Tollesboro, under the ministry of Elder William Morrison.

She was married to Amos O. Clary in November, 1879, and died May 11, 1887. Her remains were taken to the Christian Church, where funeral services were conducted by Elder Morrison, assisted by Rev. Cornes. The body was then conveyed to the beautiful hill-side cemetery of Mt. Carmel and placed beside her father. Bettie loved her church and was a faithful and devout member. She was a beautiful in form and feature. She had a warm heart and a sunny face, and was ever ready to speak pleasant words and do deeds of kindness. Her praises were on the lips of all who knew her. She was very patient in her severe afflictions and seemed perfectly resigned to the will of God, and when the end came she called her husband, brothers and sisters to her bedside, kissed them and bade them good-bye. Her soul will rest in its tenement of clay with a well-grounded hope of ascending to happiness and glory and a conveyance to the world of eternal bliss.
